JUNE HIGHLIGHTS

- ***Top of the Natural World*** – *The canopy of the world's tallest trees is home to a unique ecosystem.*
- ***Beyond the Papier-Mache Volcano*** – *What do you get when you cross two ambitious middle school students, an oceanographer, and a school science fair?*
- ***Cacophonous Katydid*** – *If you think an evening insect chorus is loud, just wait 'til morning.*
- ***Plus*** – *Tagging Alaskan Graylings, Martian life on earth, the Big Bang, and more!*

To learn more, tune in.

We invite fans of *Pulse of the Planet* to visit our newly designed website - **pulseplanet.com**. You'll find Science Diary blogs, Audio Adventures, Listeners' Favorites and a wealth of great sounds. *Pulse of the Planet* CDs are ideal premiums for fundraising.

You should always receive your Pulse CD by the 25th of the month preceding broadcast. If it fails to arrive, please call Murray Street Enterprise right away at 1-800-793-1673, so that we can issue a timely replacement.
